## Dear Music Lovers

I am sure every single human being on this earth loves Music, because Music is the language of the soul. Further Music being the integral part of our culture has had a very great impact on our minds. Every individual loves to sing, but does not find the platform for the same.

I am glad that Mr. Nandi Duggal, a lover of Music & the pioneer of Indian Musical Shows aboard, has provided this platform and a chance for every individual to bring out the singer from within Himself/Herself. He is a man dedicated to Music and loves to share his knowledge and experience of music with people who love to sing.

Mr. Duggal has Two Demo Instructional Studios in Mumbai Wadala. This is just not another conventional recording studio, but the only Demo Instructional Studio in India, where aspiring singers can come and get their songs recorded at a very nominal fee. Here you can sing songs of famous play back singers of the film Industry on pre recorded Music tracks. You are also provided the technical guidance for singing while recording and you are given all the possible help required to sing in any studio.

The songs recorded by you in the studio would act like mirrors of your performances and would help a great deal in analysing and subsequently improve your singing in due course of time. I wish more talents to come forward and take advantage of this opportunity.

My good wishes are with Mr. Nandi Duggal, that he may find success in carrying out this exceptional great work for the love of Music.
