Dear Aspiring Singers,

We are sure that Music is a part of our daily life and we all like to sing songs or play some instruments or hum to ourselves everyday, but only a few are blessed with the gift of music and have the talent for singing or playing an instrument.

Bringing out the singer in you can be done if your voice is recorded in a studio with music. Singing in a studio brings an awareness of how well you can sing & what can be done to improve your mistakes. Very often we do not realise until we are instructed in the right manner.

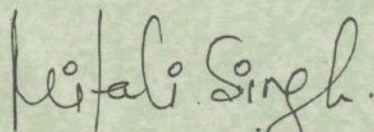

Mr. Nandi Duggal who has pioneered so many ventures in Music all over the world, has two Demo Instructional Studios in Mumbai (Wadala), the only ones of its kind in India today where you can come and sing on pre-recorded Music tracks of famous playback singers of the film Industry.

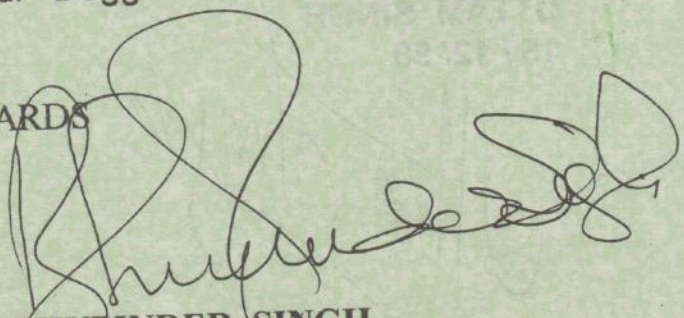

In this studio you will be given all the help required for singing professionally. Here you will be taught the various technical aspects of singing in a studio such as breath control, diction, proper usage of microphones, voice modulation, sur, taal etc.

This is an excellent opportunity for everyone who wants to develop himself/ herself into a professional Singer in due course of time if they have the talent within himself/herself.

We congratulate and wish Mr. Nandi Duggal all the success in this great venture.

LOVE & REGARDS

MITALI SINGH
